

x

Here is a simple guide to set up your first Solana wallet using Phantom. With the Phantom app you can send, receive and hold the **Eagles PLAY Token**. Check it out with just a few simple steps:

Phantom Wallet Setup

1

Go to [Phantom.app/download](https://phantom.app)

From Phantom's website you can easily select an installation on iOS, Android, or as a desktop browser attachment.

2

Create your wallet

Once you have downloaded Phantom on your phone or added it as a browser attachment you can now create your wallet. Click create a new wallet and write down your 12 - 24 word seed phrase in a safe location.

Do not share your seed phrase! It is the password to your crypto!

3

Get your Solana address

At this point you now have the Phantom app and your own personal wallet. The next step you simply have to click "receive" and copy down your Solana address. You will need that to receive your first batch of PLAY tokens.

it is always safe to share your wallet address!
